

9:15–9:30 **Opening**

Session 1 (Chair: Meiyun Guo 郭美云)

9:30–10:00 Dag Westerstahl (Stockholm University):

Compositionality solves Carnap's problem

10:00–10:30 Chongli Zou 邹崇理 (Academy of Social Sciences): Some thought on the interdisciplinary studies of logic, language and computation

10:30–11:00 **Tea Break + Photo Session**

Session 2 (Chair: Jiahong Guo 郭佳宏)

11:00–11:30 Sonja Smets (University of Amsterdam): Playing for knowledge

11:30–12:00 Johan van Benthem (University of Amsterdam and Stanford University): Logical dynamics, mathematics, and natural language

12:00 – 2:00 **Lunch**

2:00–4:40 **5 Slides Presentations (Chair: Liying Zhang 张立英)**

Yi Wang 王轶 (Zhejiang University): Epistemic logic of agent update

Qing Jia 贾青 (Chinese Academy of Social Sciences): The Formalization of cooperative principle

Fengkui Ju 琚凤魁 (Beijing Normal University): Concatenation, Intersection and union of action chains

Jianying Cui 崔建英 (Sun Yat-sen University): Rationality in the algorithm of backward induction and DEMO

Jiahong Guo 郭佳宏 (Beijing Normal University): A rough description of knowing sets in the framework of first order epistemic logic

Meiyun Guo 郭美云 (Southwest University): Some problems in characterizing NE in strategic games

4:40–5:00 **Tea Break**

5:00–6:00 **Exchanging translation experiences (Chair: Johan van Benthem)**
